Genius Brands International, Inc. (NASDAQ: GNUS)
James McIlree, CFA

561-237-2709

jmcilree@dawsonjames.com

Buy: WOW! Full year 2021, Q1 22 and Pro forma financials released.

Financial results for WOW! for 2021 and Q1 22 were released as well as pro forma financials for the combination with Genius. We reiterate our Buy recommendation and \$5 price target.

Full year 2021 and Q1 22 financial results for WOW! were released, with 2021 revenue for WOW! (in U.S. dollars) up 40% to \$64 million, EBITDA tripling to \$6.7 million and EBITDA margin of 10.5%, the highest in WOW! history. The strong momentum continued in Q1 with revenue up 54% to \$18.2 million, and EBITDA of \$2.0 million, up 39% from Q1 21.

WOW!'s revenue is segmented into Animation Production and Networks & Platforms. Animation Production was 65% of total 2021 revenue and 70% of Q1 22 revenue. Of that, about one-third of Animation Production revenue for 2021 (23% in Q1 22) was for company-developed and owned content and the remainder third-party animation services. Networks & Platforms is mostly YouTube derived revenue and has stabilized around \$5 to \$6 million per quarter.

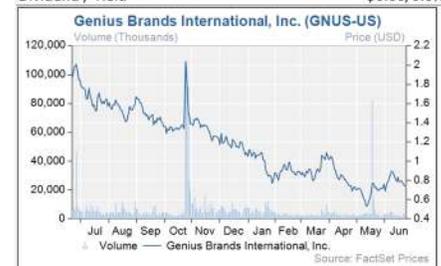

Genius has \$125 million in production orders, best thought of as 18-24 months in duration, across 15 animated series, of more than 400 episodes. These orders include production for third-parties as well as internally developed content. The level of production orders is far in excess of the production backlog and internal content investment of WOW! Unlimited before its acquisition by Genius. We think this provides solid revenue visibility for the company for the next twelve months.

With the consummation of the WOW! Unlimited acquisition, Genius now has in-house content creation from Genius Brands, talent acquired from WOW!, independently created content from WOW!'s YouTube multi-channel network and global distribution capabilities contributed by YFE and AmebaTV. WOW!'s animation studio produces in-house content and for customers such as Dreamworks and Mattel. Genius also operates the largest marketing and media agency within the Kids 2-11 age group, with annual media spending exceeding \$100 million. In a very short period of time Genius has transformed itself into a global developer, producer and distributor of animated children's content. We expect the company to continue adding to its portfolio of assets and capabilities over the coming years.

Valuation: We believe the shares should trade at the high-end of the historical range of a comparable group of media companies, or 7x to 8x 2023E sales. This puts the valuation for the revenue generated predominantly by the Genius and WOW! content at around \$2.50 per share. We estimate the replacement value of the company's library of content, primarily from YFE which has been under-utilized because of its weak balance sheet, is over \$800 million, or an additional \$2.50 per share. Combined, this results in a price target of \$5 per share.

Risks: Risks to achieving our price target include challenges in integrating the operation of WOW! and YFE, competition from larger companies, ability to attract creative talent, attracting and retaining management necessary to manage a global organization and changes in consumer behavior and viewing patterns brought on by the COVID-19 pandemic.

Valuation

A comparable group of media and entertainment companies trades on average at 1.8x FTM sales, but the range is wide, from 0.6x to almost 3.0x driven by growth and margins. Genius is trading at 2.6x FTM sales but at 2.2x our 2023 revenue estimate, which includes a full year of WOW!

Source: Factset and Dawson James Securities estimates

We believe an EV/Sales ratio at the higher end of the historical comp range, which has reached 8x sales, is appropriate because of the high-growth potential for Genius. The content from Genius and WOW! will benefit greatly, we believe, from the ability to utilize the YFE network in Europe and the rest of the world. Genius's Cartoon Channel! will benefit from the addition of content from YFE's library and the company's media buying power can leverage the stronger content with ad buyers. Results at WOW!'s MCN (multi-channel network) and O&O (owned and operated) networks have been improving and with additional capital and expanded distribution, we expect an acceleration in growth. Plus, the addition of two animation production studios should allow the entire Genius organization to produce higher-quality content at lower costs than it is currently capable of doing. All of these factors, we believe, suggest the shares should trade at the high-end of the historical comparable range or 7x to 8x 2023E sales. This puts the valuation for the revenue generated predominantly by the Genius and WOW! content at around \$2.50 per share. We estimate the replacement value of the company's library of content, primarily from YFE which has been under-utilized because of its weak balance sheet, is over \$800 million, or an additional \$2.50 per share. Combined, this results in a price target of \$5 per share.

Risk Analysis

Risks to achieving our price target include challenges in integrating the operation of WOW! and YFE, competition from larger companies, ability to attract creative talent, attracting and retaining management necessary to manage a global organization and changes in consumer behavior and viewing patterns brought on by the COVID-19 pandemic.
