August 10, 2022

Buy: Q2 Review. Record Revenue on GVB Acquisition.

James McIlree, CFA

561-237-2709

jmcilree@dawsonjames.com

Q2 revenue of \$14.5 million was a company record driven by the acquisition of GVB. We forecast sequential revenue growth for the rest of this year and through 2023. We reiterate our Buy recommendation and \$8.50 price target.

Q2 revenue of \$14.5 million was a company record driven by the acquisition of GVB which contributed over \$4 million in sales for the quarter. EBITDA was a bit lower than forecast as the company integrates GVB and spends to introduce VLN. We expect continued revenue growth driven by customer wins and capacity expansion at GVB and increased sales of VLN.

Key for the shares will be the VLN roll-out. The company indicates the pilot at Circle K in Chicago is exceeding expectations. VLN is now entering phase 2 of the program to increase share and drive repeat purchases. Further expansion in Chicago and Illinois is underway as is a wide-scale entry into the Colorado market, where agreements with two distributors will enable VLN to be placed in 3,000 outlets in that state.

22nd Century is evaluating market entry into other states (Connecticut, North Carolina, Washington, Hawaii, Utah, Michigan and Kentucky) with reduced excise taxes for MRTP products. This would allow the company to maintain prices at premium levels and use the tax savings for consumer education and better target the segment of the population seeking to quit smoking. We have modeled a modest \$2 million revenue contribution from VLN in 2023, but believe this could be exceeded depending on the Circle K expansion into other markets and the simultaneous entry into other markets.

We have modeled a significant ramp in revenue from GVB in the second half, and these volume increases drive margin expansion. The addition of GVB provides much greater scale for 22nd Century and with the front-end plant design expertise, will enable GVB to offer customized products to the CBD market. We think this will put GVB in a unique position relative to competitors and we also believe the regulatory environment will tighten and benefit suppliers like GVB, which has focused from the beginning on being compliant with FDA regulations.

Cash is required to fund operations until the low-nic mandate becomes operational, which will take a few years. We expect the incumbent tobacco companies will try to delay. The recent capital raise strengthens XXII's position relative to this delay strategy.

Valuation: Our \$8.50 price target is the sum of: An estimated \$4.58/share for the VLN asset, \$3.18/share for the low-nicotine mandate and \$0.74 for the hemp/cannabis franchise.

Risks to Target include, among others: Our price target assumes the company launches VLN pilots in test markets this year and this could take longer than estimated and/or its partner could demand different terms than assumed. Our price target also assumes a nicotine mandate. The nicotine mandate may take longer to decide, and the transition period could be longer than estimated. See the Risks Analysis section for additional risks.

Source: 22nd Century Group, Inc. and Dawson James Securities estimates

Valuation. Our price target of \$8.50 comprises three components: We attribute about \$4.58/share for the VLN asset. The non-addictive nicotine mandate is valued at \$3.18 per share. The remainder of the price target, or \$0.74 per share, equals about \$112 million and encompasses the company's investment in Exactus, the Anandia licenses and the potential from its relationship with KeyGene. We have assumed a long gestation period for the hemp/cannabis business because it is in the early stages. However, the Aurora announcement and the restructuring of the Panacea/Exactus investment could be catalysts to more rapid development of the market and 22nd Century's monetization efforts.

Risk Analysis

Our price target assumes the company launches VLN pilots in test markets this year, and this could take longer than estimated and/or its launch partner could demand different terms than assumed. Our price target also assumes a nicotine mandate. The nicotine mandate may take longer to decide, and the transition period could be longer than estimated. There will likely be other paths attempted by the industry to comply, or the industry may opt to focus on other nicotine delivery systems as regulation of the combustible cigarette market increases. This could affect our assumptions on the royalty rate as well as market share.

Dawson James Securities, Inc. (the "Firm") is a member of the Financial Industry Regulatory Authority ("FINRA") and the Securities Investor Protection Corporation ("SIPC").

The Firm does not make a market in the securities of the subject company(s). The Firm has engaged in investment banking relationships with the subject company in the prior twelve months, as a manager or co-manager of a public offering and has received compensation resulting from those relationships. The Firm may seek compensation for investment banking services in the future from the subject

company(s). The Firm has not received other compensation from the subject company(s) in the last 12 months for services unrelated to managing or co-managing of a public offering.

Neither the research analyst(s) whose name appears on this report nor any member of his (their) household is an officer, director, or advisory board member of these companies. The Firm and/or its directors and employees may own securities of the company(s) in this report and may increase or decrease holdings in the future. As of August 1, 2022, the Firm as a whole did not beneficially own 1% or more of any class of common equity securities of the subject company(s) of this report. The Firm, its officers, directors, analysts, or employees may affect transactions in and have long or short positions in the securities (or options or warrants related to those securities) of the company(s) subject to this report. The Firm may affect transactions as principal or agent in those securities.

Analysts receive no direct compensation in connection with the Firm's investment banking business. All Firm employees, including the analyst(s) responsible for preparing this report, may be eligible to receive non-product or service-specific monetary bonus compensation that is based upon various factors, including total revenues of the Firm and its affiliates as well as a portion of the proceeds from a broad pool of investment vehicles consisting of components of the compensation generated by investment banking activities, including but not limited to shares of stock and/or warrants, which may or may not include the securities referenced in this report.

Although the statements in this report have been obtained from and are based upon recognized statistical services, issuer reports or communications, or other sources that the Firm believes to be reliable, we cannot guarantee their accuracy. All opinions and estimates included in this report constitute the analyst's judgment as of the date of this report and are subject to change without notice.
